

## What's new!

KF Aggregates has a new name, KF Aggregates Recycling. This spring we added a new division to our operation by adding recycled products featuring recycled asphalt and recycled concrete. These recycled products are not only a cost effective option for your construction needs, they also help reduce landfill overflow making them an environmental product solution.

### Recycled Products Being Offered

Recycled Asphalt Aggregate	Application
Reclaimed Crushed Asphalt 3/4"	Paved asphalt & traffic gravel replacement. Used for driveways, commercial and industrial lots
Recycled Concrete Aggregate	Application
Reclaimed Crushed concrete 1" minus	Base gravel substitute
Reclaimed Crushed concrete 1" to 3"	Interlocking product used for subbase layer where the ground is soft. Used for compaction on commercial and industrial sites.
Reclaimed Crushed concrete 3" to 6" (rip rap)	Replacement for rip rap rock around culverts and bridges
Reclaimed Crushed concrete 3" to 10" (rip rap)	Replacement for rip rap rock around culverts and bridges

### KF Aggregates Recycling also offers disposal options!
